Present Use: Residential: single dwelling

Date of Construction: c. 1890

Date(s) of historic changes, if any:

Post-historic changes and date(s):

Architect:

Builder:

Brief Description:

Two-and-a-half story, Queen Anne with vinyl siding and a complex truncated hip roof with multiple cross gables. Two, massive brick chimneys with corbelling and top additions rise on the S & N slopes. The front-facing gables are decorated with pointed shingles and have a Palladian window in the R gable and another window in the gabled dormer. The second floor balcony is just off-center on the façade (E) under a flared secondary slope and features short, turned posts connected by turned open frieze and jigsaw brackets. This balcony has a glazed-wood door with 1-light transom and a 1/1 wood-frame window. The first floor façade is sheltered by a full-width hip porch, which wraps around to the S elevation, supported by turned posts connected by heavy turned balustrade and open frieze with jigsaw brackets. Under the porch, the entrance is obscured by a heavy security door. To the R is a 3-bay undercut bay window (1/1/1 triple-hung sash) and to the L are two, 1/1/1 triple-hung sash wood-frame windows, all floor to ceiling. The front-facing gable frames the entrance to the porch, projecting slightly with pointed shingles in the gable end. The 3-bay window on the N elevation has jigsaw brackets and panelled cornice. The house also has shallow, boxed eaves.

Outbuildings or secondary elements (If significant, use separate form)

Lattice pavilion with pyramidal roof of wood shingles C Frame, clapboard garage with 4/4 wood-frame windows (C)
